'Work With Us'

Divisional Commanders Message

**CITY
WIDE**

August was a challenging month for Lothian & Borders Police with the Edinburgh Festival celebrations and commencement of the new football season. The police service is often pulled in many directions by the demands placed upon us however, as ever, we continue to provide daily a high level of service to the public across the city.

With Freshers Week approaching, officers continue to maintain established links with the Universities, providing information to new students on a variety of issues including personal safety, lifestyle and home security.

In addition, as we approach Autumn and subsequent darker nights, in terms of home security, I would encourage vigilance and if anyone is seen acting suspiciously, contact your local police station.

Colin Campbell Divisional Commander

Unfortunately, at this time of year, break-ins to garden sheds become more common. Many criminals consider this type of crime to be low risk, as they don't have to force entry to your home. People store bikes, power tools and expensive gardening equipment in their sheds making them very attractive targets for criminals.

The good news is that there is a lot you can do to outsmart garden thieves. A few simple solutions can make all the difference to the security of your garden. Firstly is your shed in a good state of repair?

- The hinges and any hasps should be attached using coach bolts rather than screws, and use a good quality closed shackle padlock.
- Shed window – securely fit a grille over it; either internally or externally.
- Garden forks, spades, etc. can all be used as tools to try and force entry to your house. Secure them together with a length of chain through the handles secured by a padlock. Don't leave tools lying around the garden and make sure ladders are kept secure.
- Bikes - use securely fixed ground anchors and good quality bike locks to secure them. These can also be used for lawnmowers etc, or again secure them together.
- Security mark tools, lawnmowers, toolboxes and garden furniture, by engraving, painting or using a security marker pen. Mark them with your surname, house number and postcode.
- Install security lighting.
- Fit a shed alarm. These only cost a few pounds and can be bought from most DIY store.

Should you require any further security advice contact your local Neighbourhood Crime Prevention Officer.
